

ORQUIDEAS HOLANDESAS, S.A.

Holland Orchids

DUTCH CYMBIDIUM CUT FLOWERS
GUATEMALA, CENTRAL AMERICA

Rainforest Alliance
Certified Flowers

About us

Holland Orchids is dedicated to the production of Cymbidiums as a cut flower. Our Greenhouse is located in Chimaltenango, Guatemala, which has the perfect environment for growing these beautiful flowers.

Our highly trained team of professional growers is committed to providing our customers with the highest quality of flowers on the market through the use of cutting edge dutch technology and equipment.

Our facilities

Our farms are strategically located in the mountains of Guatemala, which allows us to have year-round optimal weather conditions to produce top quality product.

Additionally, Guatemala's proximity allows us to send fresh product to you with a shorter lead time than other Cymbidium producers.

Our Commitment

We have successfully selected over 75+ dutch varieties which allows us to offer year-round availability. This is a key competitive advantage which doesn't exist anywhere else in the world.

We've also carefully selected our flowers to ensure consistency in shape, size and color vibrance.

Our Certifications

Our Cymbidium Greenhouses are proudly Rainforest Alliance Certified™. This assures you and your customers that our flowers are produced using environmentally and socially responsible practices. Buying flowers with the Rainforest Alliance Certified™ seal support a healthier planet and an improved quality of life for farming communities.

We also have ISO-9001:2015 certification that specifies requirements for a quality management system.

Our Certifications

Certificado

de cumplimiento con la Norma Red de Agricultura Sostenible (RAS)
